Dear School Patrons:

Additional clarification has been discovered from a source at the Governor's Office that **allows cheerleaders at indoor youth events to have four spectators per cheerleader** to be added to the previous directive regarding attendance for those events. This is not in any written directive that I have been able to discover and in fact the additional clarification in writing to me from a source outside of the Governor's Office did not support this new information.

The verbal clarification has been noted in my office and we are moving forward with this new information. I am encouraged that this clarification has been provided and seems to be a reasonable response.

This "allowance" has not allayed any of the other directives regarding attendance at indoor youth events. I likely share your evaluations of the varied sets of information we receive on how we are to conduct our events.

**Principals will be making adjustments to allow for the additional four spectators per participating cheerleader at indoor youth events at this time.**

Thank you for your time and consideration,

Joe L. Van Tuyl  
Superintendent
