Stroud Schools Students and Parents:

We implemented an aggressive technology instructional plan the last weeks of the school year in an attempt to provide the best available opportunities for your education with the circumstances of the time. In that same spirit, we are allowing students and parents to maintain your issued technology at home during the summer months to have the availability of enrichment options until the start of the next school year.

Students and parents who wish to return the equipment during those months until school starts may do so by making arrangements with the building principals at each site. Please understand all students and parents remain completely responsible for all equipment kept in your possession over the summer months per contract as in all other times of the year.

Our technology approach will be an ongoing part of our academic approach in the Stroud Schools now and into the future; whether we are conducting school in a virtual online environment, an onsite environment, or a blend of both of those strategies. We are excited to be able to have the flexibility and opportunity to meet the needs of our students in many ways.

Contact your building principals for specific information in all areas here. You can expect a directive from their offices very soon for other guidance.

Have great days,

Joe L. Van Tuyl  
Superintendent
